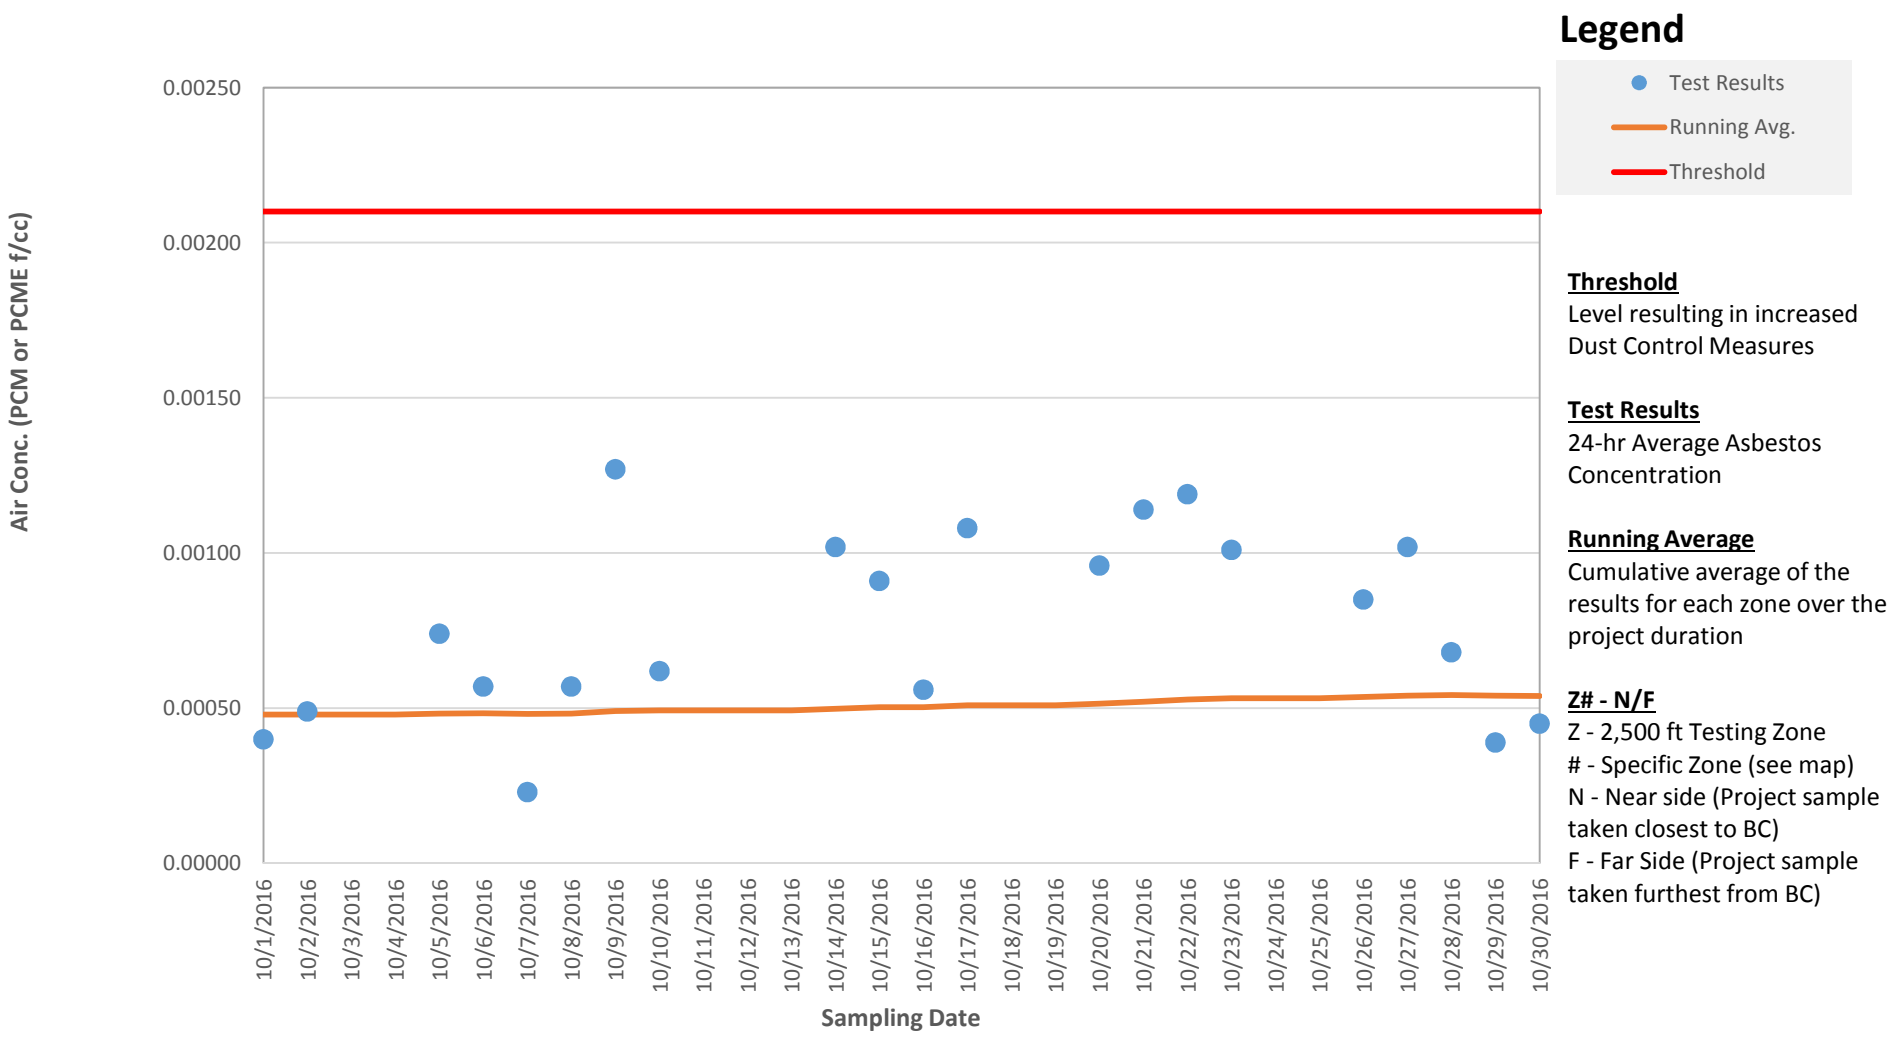
I-11 Design-Build Project

Perimeter Air Results

Station: ***Z4-F***

Month: ***October-16***



Threshold
Level resulting in increased Dust Control Measures

Test Results
24-hr Average Asbestos Concentration

Running Average
Cumulative average of the results for each zone over the project duration

Z# - N/F
Z - 2,500 ft Testing Zone
- Specific Zone (see map)
N - Near side (Project sample taken closest to BC)
F - Far Side (Project sample taken furthest from BC)
